For each health need the hospital plans to address, the Implementation Strategy for each hospital describes actions the hospitals intend to take, including programs and resources they plan to commit, planned collaboration between the hospitals and community organizations, and anticipated impacts of these actions. Certain other health needs were identified but are not specifically addressed in the Implementation Strategy. These include, for example dental health, mental health, community safety, STDs and substance abuse. While the hospitals address these issues on a day to day basis in the normal course of operations, they have chosen not to focus these Implementation Plans on these other needs because they believe they can have a greater impact on the priority health needs selected. B	<p>FACILITY REPORTING GROUP B USC VERDUGO HILLS HOSPITAL PART V, SECTION B, LINE 5 Two community focus groups held on Tuesday, April 5 and Thursday, April 7, 2016 were attended by 48 people including health care professionals, social service providers, city and public health officials, members from the local police department and other community leaders. Participants were invited by the Glendale Hospital Collaborative, leveraging its extensive networks and relationships within the greater Glendale area and the Glendale Healthier Community Coalition. These stakeholders represented a broad range of geographic, public health, and population interest in compliance with the ACA. The goal of this component of the CHNA was to identify broad health outcomes and drivers (which, combined are health needs), as well as assets and gaps in resources, through the perceptions and knowledge of varied and multiple stakeholders. The CHNA included the collection of over 300 data indicators that helped illustrate the health states of the community. Secondary data were collected from a wide range of local, county, state, and national sources to present demographics, mortality, morbidity, health behaviors, clinical care, social and economic factors, and physical environment. These categories are based on the Mobilizing Action Toward Community Health (MATCH) framework, which illustrates the interrelationships among the elements of health and their relationship to each other social and economic factors, health behaviors, clinical care, physical, environmental, and health outcomes. FORM 990, PART I, LINE 1 AND PART III, LINE 1	<p>The central mission of the University of Southern California is the development of human beings and society as a whole through the cultivation and enrichment of the human mind and spirit. The principal means by which our mission is accomplished are teaching, research, artistic creation, professional practice, and selected forms of public service. Our first priority as faculty and staff is the education of our students, from freshmen to postdoctorals, through a broad array of academic, professional, extracurricular, and athletic programs of the first rank. The integration of liberal and professional learning is one of USC's special strengths. We strive constantly for excellence in teaching knowledge and skills to our students, while at the same time helping them to acquire wisdom and insight, love of truth and beauty, moral discernment, understanding of self, and respect and appreciation for others. Research of the highest quality by our faculty and students is fundamental to our mission. USC is one of a very small number of premier academic institutions in which research and teaching are inextricably intertwined, and on which the nation depends for a steady stream of new knowledge, art, and technology. Our faculty are not simply teachers of the works of others, but active contributors to what is taught, thought, and practiced throughout the world. USC is pluralistic, welcoming outstanding men and women of every race, creed, and background. We are a global institution in a global center, attracting more international students over the years than any other American university. And we are private, unfettered by political control, strongly committed to academic freedom, and proud of our entrepreneurial heritage. An extraordinary closeness and willingness to help one another are evident among USC students, alumni, faculty, and staff, indeed, for those within its compass the Trojan Family is a genuinely supportive community. Alumni, trustees, volunteers, and friends of USC are essential to this family tradition, providing generous financial support, participating in university governance, and assisting students at every turn. In our surrounding neighborhoods and around the globe, USC provides public leadership and public service in such diverse fields as health care, economic development, social welfare, scientific research, public policy, and the arts. We also serve the public interest by being the largest private employer in the city of Los Angeles, as well as the city's largest export industry in the private sector. USC has played a major role in the development of Southern California for more than a century and plays an increasingly important role in the development of the nation and the world. We expect to continue to play these roles for many centuries to come. Thus our planning, commitments and fiscal policies are directed toward building quality and excellence in the long term.</p>
